VICK'S WHOLESALE PRICE LIST • 1912

VICK'S ENCHANTRESS PINK ASTER

JAMES VICK'S SONS

SEEDSMEN

ROCHESTER, NEW YORK

Cable Address, Vick, Rochester

TERMS

To all regular customers, all bills with exceptions hereafter noted, for seeds, bulbs, or plants, made before June 1st, will be due at that date, and those made after that time will be due 60 days after date of invoice. A discount of one per cent. per month will be allowed when payment is made previous to these dates. Prior to April 1st **Peas, Beans and Corn**, unless a part of a general seed order, will be billed 2 per cent. ten days, net 60 days. On and after April 1st net June 1st. **Grass Seed, Clover Seed, Potatoes, and Onion Sets, invariably net cash.** Satisfactory reference required from all new or unknown correspondents desiring credit. All orders from new customers amounting to less than \$5.00 must be accompanied by cash. We decline to send **C. O. D.** unless a partial remittance is made as guarantee of good faith. **We are not bound by these prices for any length of time. All quotations herein are subject to advance without notice.**

We send out no seeds on commission. All shipments F. O. B. Rochester.

Prices of Flower and Vegetable Seeds

FIVE CENT PAPERS—Per 100, \$2.00; per 1000, \$18.00.

TEN CENT PAPERS—Per 100, \$4.00; per 1000, \$35.00.

FIFTEEN CENT PAPERS—Per 100, \$6.00; per 1000, \$50.00.

TWENTY CENT PAPERS—Per 100, \$8.00; per 1000, \$70.00.

TWENTY-FIVE CENT PAPERS—Per 100, \$10.00; per 1000, \$80.00.

Not less than 100 papers at the 100 rate, nor than 1000 papers at the 1000 rate. Dealers who prefer can make their own selection from our Retail Catalogue at the above rates, provided not less than 100 papers are ordered, nor less than five papers of a kind. Where less quantity is desired a discount of 50 per cent. from retail prices will be allowed.

All Novelties at packet prices are net, from which there are no discounts.

Once papers, pints and quarts, 40 per cent. discount from retail prices. Flower Seeds by the ounce and pound, and Vegetable Seeds by the pound, and bushel, are priced net in the body of this catalogue—ten pounds the minimum amount at the hundred rate; $\frac{1}{4}$ pound at the pound rate; $\frac{1}{8}$ bushel at the bushel rate. Smaller quantities at a slight advance. For scale of prices on Flower Seeds in fractional parts of an ounce see pages 20, 21 and 22. No quantity of seed packed from bulk for less than ten cents. When smaller quantities are required use the five or ten cent papers taking advantage of the discounts indicated above.

Boxes of Flower Seeds

For the convenience of small dealers we put up boxes of seeds in papers, embracing those varieties most in demand, and in such proportions as our long experience has taught us are called for.

THE BOX OF FLOWER SEEDS contains \$5.00 worth of retail papers; price to dealers \$2.00 also, \$10.00 worth for \$4.00. As these boxes are filled early in the season, before the press of business begins, no changes can be made from the assortments we have put up.

SHIPPING

Purchasers will please send explicit shipping instructions with each order. Where no such instructions are given we shall exercise our best judgment in the matter; but when goods have been so delivered at the freight or express station, in Rochester in first-class condition, addressed as ordered, we disclaim all responsibility for any accident damage or delay on the route. When goods are desired sent by mail, postage must be added at the rate of 8 cents per pound, other wise we will deduct enough from the order to cover postage or add the postage to invoice as the case may require.

 Bags, boxes, and barrels will be charged at cost. No charge for cartage or packing.

James Vick's Sons give no warranty, express or implied as to description, quality productiveness, or any other matter, of any seeds, bulbs, or plants they send out, and they will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms they are at once to be returned.

JAMES VICK'S SONS

FOR the eighth year in succession, our wholesale orders have shown a substantial increase over the previous high mark. To our minds, this fact is about the best testimonial we could offer as to the quality of our seeds and the satisfactory nature of our service. We are not forgetful of the fact that our steadily increasing business is due to the confidence and good will of the many merchants and florists who yearly send us their orders. It is a striking fact that our total sales have increased more rapidly than our list of customers, which proves conclusively that the average customer is sending us larger and larger orders every year. This in itself is a record of which we are naturally proud. Our customers and friends may depend on us to sustain carefully this reputation by furnishing the best quality seeds and bulbs we are able to obtain. We realize that our entire success is wrapped up in the success of our customers. Hence, every business instinct prompts us to work for their welfare.

The past season has been a disastrous one to many seed crops. There are a few varieties of which we have very little stock. But so far as we are able to learn, we are in a better position than most seedsmen, for the reason that, on the whole, we have our wants well cared for. It therefore does not become necessary for us to raise our prices as high as some others are doing. This does not mean that we have unlimited supplies, but simply having secured a fairly reasonable supply for our regular customers, it is our desire to keep our prices at a reasonable figure, believing in the long run it will work to our mutual advantage so to do.

It must be distinctly understood, however, that we reserve the right to refuse orders on varieties which are scarce if it appears that the purchaser merely intends to take advantage of our low prices on a few varieties, and does not give us a general seed order. We shall adhere strictly to this rule.

Furthermore, it is our intention to keep our stocks for the benefit of our regular customers. This is a difficult thing, to do, however, and can only be accomplished if our customers will send in their orders early, since we cannot be expected to hold stocks for them after the season is well advanced.

There are many other reasons why we urge our customers to send in their orders early, and not wait until the goods are needed. While we make it a rule to fill every order within twenty-four hours of its arrival here, the rush of late orders make this work extremely difficult. If our customers will send for their seeds early, before they are needed, it will give us the opportunity to handle all of our trade easily, quickly and satisfactorily.

Finally, we extend to our numerous friends and customers cordial personal greetings, and hope that this season may be profitable and satisfactory in every way.

January, 1912.

JAMES VICK'S SONS,

ROCHESTER, N. Y.

Trade List for 1912

 A Telegraphic Cipher is attached to each article, which will enable orders to be sent by wire at comparatively little expense. For example:

Two Bacon means two bushels Extra Early Red Valentine Beans; or
Fifty Beget means fifty pounds Egyptian Blood Turnip Beet, etc.

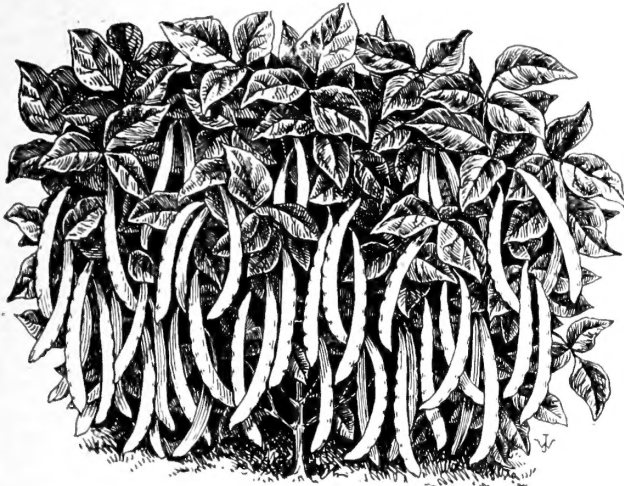

This Telegraphic Cipher cancels all formerly printed.

Ten pounds or more will be charged at 100 pound rates; quantities of one pound and less than ten pounds at the pound price. For quantities of less than one-fourth pound a slight increase over the pound price is necessary. Bags and boxes at cost.

For some few articles, in larger lots than herein quoted, we will make special prices by mail or wire.

PRICE NET, WITHOUT DISCOUNT.

IMPROVED GOLDEN WAX.

Improved Rustless Golden Wax. A strong grower, positively free from rust. Pods are meaty and well filled, of fine quality, and stringless from first to last. With its fine quality, hardiness, productiveness and freedom from rust, it has become a general favorite and a great improvement over the old-fashioned Golden Wax.

Vick's Improved Danish Baldhead

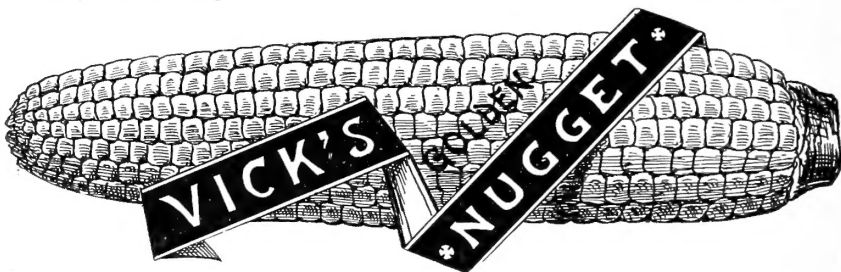

Of the many varieties of Cabbage introduced within the past few years none have attained a greater popularity, or given such general satisfaction as Vick's Improved Danish Ballhead. The fame of this particular strain has become world wide. It commands a higher price in the market than any other variety. It is remarkable for the solidity of its head and long keeping qualities. The heads are of medium size, with few outer leaves, admitting of close planting; exceedingly fine-grained, hardiest of all, tender, crisp, solid, with no waste heart. Will average six pounds per head. Our stock comes direct from the best growers in Denmark.

Vick's Golden Dwarf Self-Blanching Celery

Here in Rochester we are located in the heart of one of the most famous celery growing regions in the country. It is not an uncommon thing for a single grower to ship from ten to twenty carloads of celery to New York, Philadelphia, Pittsburg and other celery markets. The leading growers pronounce our Golden Dwarf Self-blanching to be superior to all other strains of this variety, in quality, yield and salability. Dwarf, stocky, compact, rich golden yellow. Solid, tender, crisp, and of exquisite flavor. Crop shortest in many years. We shall hold our seed for regular customers as far as possible.

Vick's Golden Nugget Corn. This extra fine variety was introduced by us in 1892, and for several years was a favorite with our customers. During an unfavorable season the growing crop was lost, and we were unable to renew it until 1907, when we fortunately secured from an old customer a small quantity grown from our original stock. Ears larger and more prolific than Golden Bantam, tender and unusually sweet. Ready for market only a few days after the earliest.

CORN—SWEET or SUGAR.

Sweet Corn, if exposed to a low temperature in transit, even after being thoroughly cured, will gather more or less moisture and sometimes spoil. To avoid this, the corn should be examined as soon as received and if necessary spread out in a dry place.

VICK'S LEMON
CUCUMBER

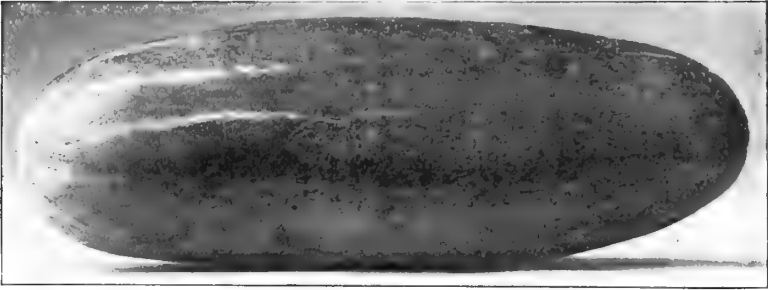

We take this space to explain that Vick's Lemon Cucumber is not the same as the Garden Lemon, as many seedmen apparently suppose. Vick's Lemon Cucumber

is a genuine Cucumber, of extra good quality, and commercial value, which originated on our own farm and which we have catalogued for a number of years. The Garden Lemon is not a Cucumber at all, but belongs to the Gourd family.

Heretofore we have never had sufficient seed of Vick's Lemon Cucumber to fill our orders, but we have raised a large crop on our farm this year, and we hope to have sufficient seed to fill all wants.

Vick's Perfection White Spine

Unrivalled in shape, size, color and productiveness. Without doubt White Spine and Long Green Cucumbers have larger sales than any other varieties. Now, there is a good deal of difference in the quality of the various kinds of seed sold under the above names. Our strains of these varieties have been carefully developed through selections from year to year, until in our estimation the fruit from our seed surpasses both in quality and yield any other strains.

VICK'S IRONDEQUOIT MUSKMELON

Without doubt the finest Muskmelon ever grown, either for commercial purpose or for gardens. The flesh is a beautiful dark orange, skin is finely netted, yellow when ripe, possessing a most attractive appearance. The fruit is large; the flavor is delicious, sweet, rich and spicy. Every ounce of seed we offer comes from melons grown under our own supervision, and the seed stock selected by the most experienced men we employ. This melon holds the Rochester market to the practical exclusion of all other varieties. Moreover, whenever Vick's Irondequoit Muskmelon is offered on the markets of other large cities, it brings higher prices than any other kind. Although we have only a small supply of seed, we have not raised our prices. We advise our regular customers to place their orders early.

Vick's Early Scarlet Globe Radish

As a forcing Radish Vick's Early Scarlet Globe has established a reputation as the leading sort—the best in every way. It is handsome in form and color—a beautiful oval and rich scarlet. The amount of its foliage is small compared with other varieties, and small for the size of the Radish. The peculiar merit of this variety as a forcing Radish is that it will bear the heat requisite for forcing without becoming pithy or spongy. The flesh is crisp, tender, juicy and mild. It is equally as good for open garden culture as for forcing, and therefore it commends itself equally to the amateur and the market gardener. The dealer who sells this stock sells the best.

Our sales of this variety are rapidly increasing every year.

VICK'S WHITE KING

One of Our Splendid New Asters

Most florists, seedsmen and seed dealers throughout the country know that we make a specialty of growing high grade Asters, and that for more than twenty years we have been the leaders in the development of the Aster into the most popular Summer and Autumn flower for commercial purposes. We have introduced more varieties than any other seed concern in the world. There are few seed catalogues of any importance which we do not list from one to twenty of our varieties.

Our crop this year is with one exception the largest we have ever harvested. But best of all, we have the pleasure of introducing this season the largest and best list of new varieties we believe we ever offered in a single season.

Vick's Pink Enchantress
Vick's White King
Vick's Lavender Pink King
Vick's Blush Mikado
Vick's Late Branching Deep Pink
Vick's Early Branching Lavender

Vick's Royal Lavender Pink
Vick's Royal Lavender
Vick's Late Upright Pink
Vick's Giant Daybreak
Vick's Giant Purity
Vick's Earliest Lavender

HOW TO GROW ASTERS

Newly Revised, Enlarged and Illustrated

A booklet of practical experience in Aster growing, from the sowing of the seed to maturity including a chapter on Aster insects and diseases and their remedies. Our revised edition contains much new information as the result of recent investigation and experiments. Every Aster grower, whether an amateur or florist will find this booklet worth its weight in gold. Copyrighted. Price 10 cents, or free with an order for Aster Seed of not less than 25 cents.

FLOWER SEEDS

THE flower seeds we offer are grown largely upon our own farm; others we have grown for us on contract and under our personal supervision by the very best specialists both at home and abroad, and in climates and soils best adapted for each particular variety. The seeds used in mixtures are selected from flowers the *brightest in color and most perfect in form* and can be relied upon for purity and vitality.

For the benefit of Florists and others especially interested in Asters we issue a Florists' Aster Book giving illustrations of all the leading varieties. The handsomest work of its kind ever published. Free.

SPECIAL NOTICE REGARDING PRICES

Smaller quantities than those priced on the following pages will be charged at a slightly higher rate. No quantity of seed packed from bulk for less than ten cents. Where smaller quantities are wanted, use the five and ten cent papers, taking advantage of the wholesale discounts as stated on first inside cover.

For Quick Results in Greenhouse or Gardens

USE GENUINE PERUVIAN GUANO

No danger of burning as in the case of chemical fertilizers. Various elements immediately available. Analysis: Nitrogen, 2.24 per cent; Ammonia, 2.85 per cent; total Phosphoric Acid, 15.25 per cent; available Phosphoric Acid, 7.90 per cent; Potash available, 2.44 per cent. This Guano is the excrement of sea birds found on the islands off the coast of Peru. The birds feed upon fish, so that the material is really digested fish scrap. **The fertilizer elements are soluble in water and are available at once.** For ordinary crops, use about 400 lbs. per acre. For special working and gardening, use 600 to 1000 lbs. per acre. Can be used freely, wherever quick action and vigorous growth is desired. 100 lbs., \$2.25; 200 lbs., \$3.75; 1000 lbs., \$16.00; Ton, \$30.00, f.o.b. Rochester. Terms, net.

SPENCERS—A NEW RACE

This type, of which Countess Spencer was the forerunner, is distinguished by vigorous growth, long stems, immense flowers and wavy or fluted petals. This new class will, without doubt, supplant practically all of the leading varieties known at present. There are a number of varieties of the Spencer type, all of which are more or less established. As in the case of nearly all new varieties, there are some flowers which do not come true to type, but a sufficiently large number will come true to show the immense improvement over the older kinds. The list below is our selection out of a large number of varieties, and will, we are sure, give eminent satisfaction. Every Sweet Pea grower should get acquainted with these varieties. Bear in mind that good soil and culture are needed to bring these flowers to perfection.

	Oz.	¼ lb.	lb.
Black Knight Spencer. Deep maroon, same as parent with wavy standards and large wings	\$0 20	75	\$2 00
Blanche Ferry Spencer. A vast improvement in form over the old standard variety. A bold and striking flower . .	20	75	2 00
Countess Spencer (true). Large wavy petals, soft rose pink	10	35	1 00
Dainty Spencer. A white variety with a distinct pink edge. Flowers large, wavy, delicate and beautiful; borne on long stems, and come uniformly four blossoms to a stem	20	75	2 00
Florence Morse Spencer. Delicate blush with pink margin	20	75	2 00
Gaiety Spencer. Light magenta rose striped on white, color pure magenta with age. Medium size, semi-hooded form	20	75	2 00
Marie Corelli Spencer. Brilliant rose red Very large and vigorous	50	1 50	
Mrs. Joseph Chamberlain Spencer. Rose, striped on white ground, very large hooded form	20	75	2 00
Mrs. Walter Wright Spencer. Rosy mauve, a new form of great beauty. Large bold flowers, abundant bearer	20	75	2 00
Princess Katherine Spencer. A grand new white variety giant in size and most beautifully fluted. The buds and newly opened flowers are delicately tinted with pink, and being a black seeded variety it is hardy	20	75	2 00
Princess Alice Spencer. A beautiful shade of light lavender slightly tinted with white. Princess Alice is fully up to the true Spencer standard	20	75	2 00
Vick's Special Mixture of Spencer Varieties	10	35	1 00

 all the leading Seedsmen and Florists.

CACTUS DAHLIAS

Cactus dahlias have large, loosely formed flowers. The long, narrow petals are variously rolled or twisted. The flowers, many of which are nodding on slender stems, are the most graceful and artistic of all the Dahlias.

Each, 10 cents; dozen, \$1.00; 100, \$7.00.

Not less than 6 at the dozen rate; 25 at 100 rate,

Amos Perry. Brilliant scarlet. Early and free flowering.

Arachne. Petals white edged with crimson. Some of the flowers are all crimson

Countess of Lonsdale. Rich salmon, tinted apricot. Hardy and very free flowering.

Dainty. Primrose, shaded soft pink.

Earl of Pembroke. Dark, rich shade of reddish purple.

Kriemhilde. Exquisite combination of ivory white and pink. "Queen of the Cactus Dahlias."

Matchless. Dark, velvety maroon.

Mrs. J. J. Crowe. Clear yellow.

Mrs. H. J. Jones. Crimson-scarlet striped with cream. Varies from solid crimson to cream color on the same plant.

Mrs. Jas. Mace. Delicate blush pink.

Standard Bearer. Brilliant scarlet. Medium size. Very free flowering.

DECORATIVE DAHLIAS

Decorative Dahlias are intermediate between Cactus and Show. The massive flowers are not so globular as the Show and the petals are broad and somewhat flattened.

Black Prince. Dark velvety maroon. Large flowers.

Blue Oban. The only blue Dahlia. Lavender blue. Free blooming.

Clifford W. Bruton. Canary yellow. Large, long stemmed flowers. Finest decorative yellow.

Frank L. Bassett. Dark, bluish purple. Large flowers. Early and free blooming.

Henry Patrick. Fine white.

Keystone. Lilac ground penciled with crimson. Fine large flowers.

Lord Lyndhurst. Rich glowing scarlet. Five long stemmed flowers. A clearer, deeper shade than Wm. Agnew.

Mrs. Hartong. Light fawn suffused with pink. Large. Fine form.

Nymphæa. Light shrimp pink, almost white. The "Water Lily Dahlia." Robust plant and a large beautiful flower.

Oriental. Striking shade of orange salmon. Large flowers.

SHOW DAHLIAS

The old fashioned double Dahlia. Ball-shaped flowers; the petals quilled or tubular. As a class they are more formal than the Cactus or Decorative. They still retain their old time popularity, on account of their long stiff stems and lasting qualities as cut flowers.

Each, 7 cents; dozen, 75 cents; 100, \$5.50.

- A. D. Livoni (Ethel Vick)** Soft sea shel pink. A pendic cut flower.
Apple Blossom. Shades of pink and rose. Very pretty.
Arabella. Pale primrose, tipped lavender and shaded rose. A charming color and an early, free blooming flower.
Bird of Passage. White, tipped with pink.
James Vick. Intense purple maroon. Free blooming.
Maid of Kent. Cherry red, tipped with white.
Miller's Red. Dark crimson scarlet. Large and free flowering. A fine commercial variety.
Penelope. White, daintily flaked light lavender. Good size and free blooming.
Queen of Yellows. Clear, deep yellow. A splendid flower for cutting.
Red Hussar. Brilliant glowing scarlet. Lighter shade than Miller's Red and not quite so large. Free flowering.
Storm King. Pure white. Very early and the most profuse bloomer of any white. Plants dwarf. Flowers medium size.
White Swan. A magnificent white flower. Good size and long stems.

POMPON DAHLIAS

The ball-shaped flowers of the Pompon Dahlias are a little smaller than those of the Show class, and are borne in the greatest profusion on long slender stems. They are earlier than the larger classes.

Each, 7 cents; dozen, 75 cents; 100, \$5.00.

- Daybreak.** Shell pink.
Elfin. Pale Primrose. Dainty.
Fairy Queen. Sulphur yellow, edged deep peach.
May Oakleigh. Deep lilac.
Prince Charming. Creamy white, tipped pink.
Snowclad. The best white pompon.
Teddy. Pink and rose.
Vivid. Fiery scarlet.

VICK'S NAMED MIXTURE

A fine mixture of the leading named varieties mentioned above. We grow large quantities of about every kind and description. The surplus over our apparent needs makes about the best mixture conceivable.

Each, 5 cents; dozen, 50 cents; 100, \$3.50.

Vick's Quality Seeds not only grow but yield abundantly and produce crops of high market value.

Lycoris squamigera, Magic Flower.

Magnificent hardy Amaryllis. Large blooming bulbs, grown on our own farm from thoroughly acclimated stock, much superior to imported bulbs. The leaves, which resemble those of Narcissus, die down in mid-summer. They are followed by strong two and one-half foot stems, surmounted by large numbers of fragrant Orchid like flowers of a beautiful lilac-pink. Strikingly decorative flower

The Paragon Sprayer

For Spraying Trees, Vines, White Washing, Water Painting, Disinfecting, and Many Other Purposes.

This machine is portable, durably constructed and so arranged as to be easily operated by one man. It can be brought in close proximity to the work, thereby eliminating the use of a long, expensive hose. The patented self-cleaning strainer prevents the necessity of first straining the liquid to be sprayed. This is a point that should not be overlooked, as straining liquid white-wash in particular is a slow and disagreeable task. The spray nozzle has only a 1-32 inch outlet and spreads the liquid well, thereby covering a large surface with a small amount of liquid, making it a very economical sprayer. The spray will not clog as the strainer has

very small openings through which the liquid must pass before entering pump. The strainer cannot clog because the agitator passes over opening in it with each stroke of pump, brushing off any dirt or grit that may have a tendency to choke it. The agitator also keeps the liquid thoroughly stirred while in use. All parts of the machine are made of the best materials obtainable. The hose is of the very best quality. The reservoir is made of heavy galvanized iron. All essential fittings and valves are made of brass, making it very strong and durable. The pipes are black wrought iron of good quality. The body of pump is cast iron, well ribbed to prevent breakage. The screen is of heavy perforated brass and will last many years. The pump frame can easily be removed from tank when it needs cleaning, and by running water through machine after using, the entire machinery can be easily and thoroughly cleaned.

No. 3 (12 Gallons) Net Price \$13.75

Equipment, 7½ feet Extension Pipe; 10 feet 5-ply Hose; 2 Spraying Nozzles. This machine is mounted on a strong steel frame and can easily be wheeled to any desired place. Nos. 1 and 3 can be furnished with all brass pumps for \$4.00 additional.

"Square Fountain" Sprinkler

Nothing
to be
adjusted

Nothing
to get
out of order

A most
beautiful
spray

A spreading
spray that
covers a
wide area

Gets into the corners. Saves water and better yet, saves annoyance. You can soak every foot of ground in your lawn without wetting the house or the walk. Retail for 75 cents.

Price each, 55 cents. Per dozen, \$4.80.

The Auto Spray No. 1

Fully guaranteed. The only practical compressed air sprayer, and useful in the fullest variety of spraying. We recommend it for trees, vines, shrubs, up to five acres of field crops; also for spraying disinfectants, and for small white washing jobs.

There is no other sprayer which will do such a variety of work and do it so well.

The tank is furnished in either brass or galvanized iron as desired, and has a capacity of three gallons solution.

There are no screw or spun thread connections whatever in the construction of the machine, and even the pump is locked to the tank by means of a cam which can be removed or replaced by a simple twist of the wrist.

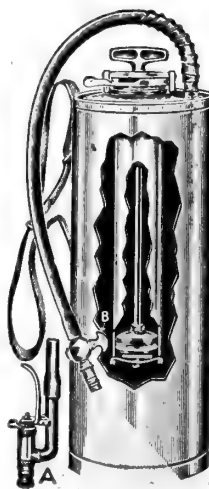

The pump is of heavy brass two inches in diameter, and two or possibly three pumpings will empty the tank under higher and more constant pressure than any other knapsack sprayer.

We recommend the brass tank, as it will not corrode; also the Auto Pop No. 1 Shut-off, automatic in action and operating a self-cleaning wire through the nozzle. (See illustration marked A)

Each machine securely packed in a separate box; shipping weight 15 pounds.

PATENTED.

The Victor Hand Sprayer

The Best and Simplest Hand Sprayer on the Market. Throws a Continuous Spray. Reservoir and Pump of Brass.

A simple inexpensive Sprayer for all purposes. Reservoir holds one quart of solution. The spray is created by using a check valve which holds the air pressure in the reservoir. The pump can be unscrewed, so that the reservoir may be easily filled. The Victor Sprayer is made in two styles.

All Brass, price: 75 cents each. Per dozen: 7.50.

FERTILIZERS

These prices are net cash.

Pulverized Sheep Manure. Pure and odorless. One of the best for lawn, garden and greenhouse use. 100 pounds, \$1.75; per ton, \$25.00.

Genuine Peruvian Guano. Especially adapted to the needs of Florists and Market Gardeners for forcing flowers and vegetables. Rich in fertilizing value. All the elements immediately available. No danger of burning. Nothing better where quick results are desired. \$2.25 per 100 lbs. 200 lb. bag, \$3.75, 1000 lbs., \$16.00, 1 ton, \$30.00.

Walker's Floral Fertilizer. A chemically correct flower food for house plants. Small size (feeds 25 plants six months), per dozen, \$1.25. Large size (feeds 25 plants for one year), per dozen, \$2.00.

Nitrate of Soda (Chili Saltpetre). The best and cheapest form of Nitrogen for plants. Highly concentrated and immediately available. Nothing like it to make plants grow. \$3.00 per 100 lbs.

Pure Raw Bone Meal. Per sack of 100 lbs., \$2.50; ton, \$40.00.

Bone Flower. Per bbl. of 200 lbs., \$5.00.

INSECTICIDES AND APPLIANCES

These quotations are strictly net cash.

(Note—Liquids and poisonous powders cannot be sent by mail).

Directions for using printed on each package.

Aphis Punk. (Nikoteen) Especially effective against green and black fly and thrip on all flowering plants. Per box of 12 rolls, 60 cents. Per dozen boxes \$6.50.

Bordeaux Mixture. Recommended by all the leading experts for general spraying. Pint 20 cents; quart 35 cents; gallon, \$1.00.

Black Leaf 40. A concentrated solution of Nicotine-sulphate which does not evaporate, like "free" nicotine, in ordinary temperatures. Therefore especially valuable for spraying in the gardens, nursery, or orchard.
